

Extraordinary General Meeting

31 March 2008

Important Notice

The circular containing the offer information statement and the wrap-around document (the "Rights Issue Circular") in relation to the proposed rights issue described in this presentation ("Rights Issue") will be dispatched to all unitholders of K-REIT Asia ("Unitholders") and will be made available on the website of K-REIT Asia at www.kreitasia.com when the offer in relation to the Rights Issue is made, subsequent to approval by Unitholders for the Rights Issue at the extraordinary general meeting of K-REIT Asia to be held on 31 March 2008. A potential investor should read the Rights Issue Circular before deciding whether to subscribe for or purchase units in K-REIT Asia ("Units") under the Rights Issue.

The value of units in K-REIT Asia ("Units") and the income from them may fall as well as rise. Units are not obligations of, deposits in, or guaranteed by, K-REIT Asia Management Limited, as manager of K-REIT Asia (the "Manager") or any of its affiliates. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested. Investors have no right to request the Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on the SGX-ST. Listing of the Units on the SGX-ST does not guarantee a liquid market for the Units. The past performance of K-REIT Asia is not necessarily indicative of its future performance. This release may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses, including employee wages, benefits and training, property expenses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business. Investors are cautioned not to place undue reliance on these forward-looking statements, which are based on the Manager's current view on future events.

Background

4

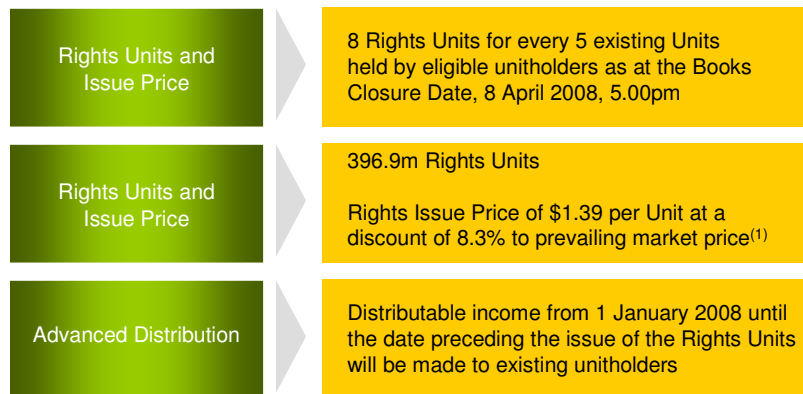

Rationale for Renounceable Rights Issue

- **Most appropriate means** of raising equity under current market conditions
 - Net asset value as at 31 December 2007: \$3.78 per unit
 - Trading price as at 28 March 2008: \$1.53 per unit
 - Fresh equity to new unitholders will be dilutive to existing unitholders
- **Reduce aggregate leverage**
 - Approaching maximum allowable limit of 60%
 - To reduce leverage and strengthen balance sheet
 - To enhance ability for **acquisition of new properties** in Singapore and the region
- Allow unitholders to **participate in K-REIT Asia's growth** without dilution of proportional stake
- Enhance **credit profile**

5

Key Details of Proposed Rights Issue

- Gross proceeds of about \$551.7m to be raised

(1) Prevailing market price is defined as the volume-weighted average trading price (S\$1.52) for the three business days immediately preceding the price-fixing date, being 28 March 2008

6

Key Details of Proposed Rights Issue

- Net proceeds to partially refinance the bridging loan taken to complete acquisition of 1/3 stake of One Raffles Quay
- **Priority to minority unitholders** for allocation of excess Rights Units
- Undertaking by **Keppel Corporation** and **Keppel Land** to take up:
 - Provisional allocations of the Rights Units and
 - Any Rights Units not subscribed for by minority unitholders

7

Impact on Aggregate Leverage and Free Float

- Based on gross proceeds of about \$551.7m, aggregate leverage of 53.9% will be reduced to **27.7%**
- Funding capacity of about \$679.8m based on borrowings⁽¹⁾ of \$581.4m and 60% aggregate leverage limit
- Number of units increased by 160% from 248.1m to **645.0m**
- Increase in free float will then increase from \$104m to about \$254m⁽²⁾, based on theoretical ex-rights price of \$1.44⁽³⁾

(1) Borrowings include \$190m fixed rate mortgage loan and balance of bridging loan from Keppel Corporation
(2) Assuming all unitholders take up their proportional allotments
(3) Theoretical ex-rights price = (Market capitalisation of K-REIT Asia before rights issue + Gross proceeds from rights issue) / Enlarged number of units after rights issue, based on closing market price of \$1.53 on 28 March 2008
